SEO Assessment

1. What is SEO? Explain On-Page and Off-Page SEO.

Ans:

SEO (Search Engine Optimization) is the process of improving a website to increase its visibility and ranking on search engines like Google and attract organic (free) traffic.

On-Page SEO: On-Page SEO refers to optimizing elements within a website to improve its search engine ranking.

Examples:

- Optimizing title tags and meta descriptions.
- Using relevant keywords in content.
- Adding proper headings (H1, H2, H3).
- Optimizing images and internal links.

Off-Page SEO: Off-Page SEO refers to activities performed outside a website to improve its authority, reputation, and search engine ranking.

Examples:

- Building quality backlinks.
- Guest posting on other websites.
- Brand mentions.
- Promoting website content on social media.

2. Define keywords. What is the difference between short-tail & long-tail keywords?

Ans:

Keywords are words or phrases that people type into search engines to find information, products, or services.

Short-Tail Keywords	Long-Tail Keywords
Usually contain 1–2 words.	Usually contain 3 or more words.
Have a broad meaning.	Have a specific meaning.

Generally have high search volume.	Generally have lower search volume.
Usually have high competition.	Often have lower competition.
Example: Digital Marketing	Example: Digital Marketing Course in Rajkot

3. What is Crawling, Indexing and Ranking?

Ans:

Crawling: Crawling is the process in which search engine bots discover and scan web pages to understand their content.

Indexing: Indexing is the process in which a search engine analyzes and stores information about eligible web pages in its index.

Ranking: Ranking is the process of ordering eligible search results according to their relevance, quality, and usefulness for a user's search query.

Example: Google discovers a blog post (Crawling), stores it in its index (Indexing), and may display it in search results based on its relevance (Ranking).

4. What is a SERP? Mention any 3 SERP features.

Ans:

SERP (Search Engine Results Page) is the page displayed by a search engine after a user enters a search query.

Three SERP features are:

1. **Featured Snippet**: A highlighted answer displayed near the top of search results to answer a user's question.
2. **People Also Ask:** A section containing related questions that users can expand to view answers.
3. **Knowledge Panel:** An information box that displays key details about a person, business, place, or organization.

5. What is Domain Authority?

Ans:

Domain Authority (DA) is a search engine ranking prediction metric developed by Moz that estimates how likely a website is to rank in search results compared with other websites.

- DA scores range from 1 to 100.
- A higher score generally indicates a stronger backlink profile and greater ranking potential.
- It is influenced by factors such as the quality and quantity of backlinks.
- Domain Authority is not an official Google ranking factor; it is a third-party SEO metric.

Section B – Practical SEO Tasks

Task 1: Keyword Research

Business selected: Bakery Business Target location: Rajkot, Gujarat Tools: Google Keyword Planner and Ubersuggest

Keyword research helps us find the words and phrases people search for on Google when looking for bakery products.

A. 10 Primary Keywords

LE Pain ARTISANAL

No.	Primary Keyword	Monthly Search Volume (sample)	Keyword Difficulty (sample /100)
1	Bakery	1,000	45
2	Cake shop	800	40
3	Bakery near me	1,200	35
4	Birthday cake	2,400	55
5	Fresh bread	500	30
6	Cupcakes	700	38
7	Chocolate cake	1,500	50
8	Pastry shop	400	32
9	Custom cakes	600	42
10	Bakery in Rajkot	200	20

B. 10 Long-Tail Keywords

No.	Long-Tail Keyword	Monthly Search Volume (sample)	Keyword Difficulty (sample /100)
1	Best bakery in Rajkot	100	15
2	Birthday cake shop in Rajkot	150	20
3	Order chocolate cake online in Rajkot	80	18
4	Best eggless cake shop near me	200	25
5	Fresh bread bakery in Rajkot	50	12
6	Custom birthday cakes in Rajkot	70	16
7	Affordable wedding cakes in Rajkot	40	14
8	Cupcake delivery in Rajkot	60	15
9	Same day cake delivery in Rajkot	100	22

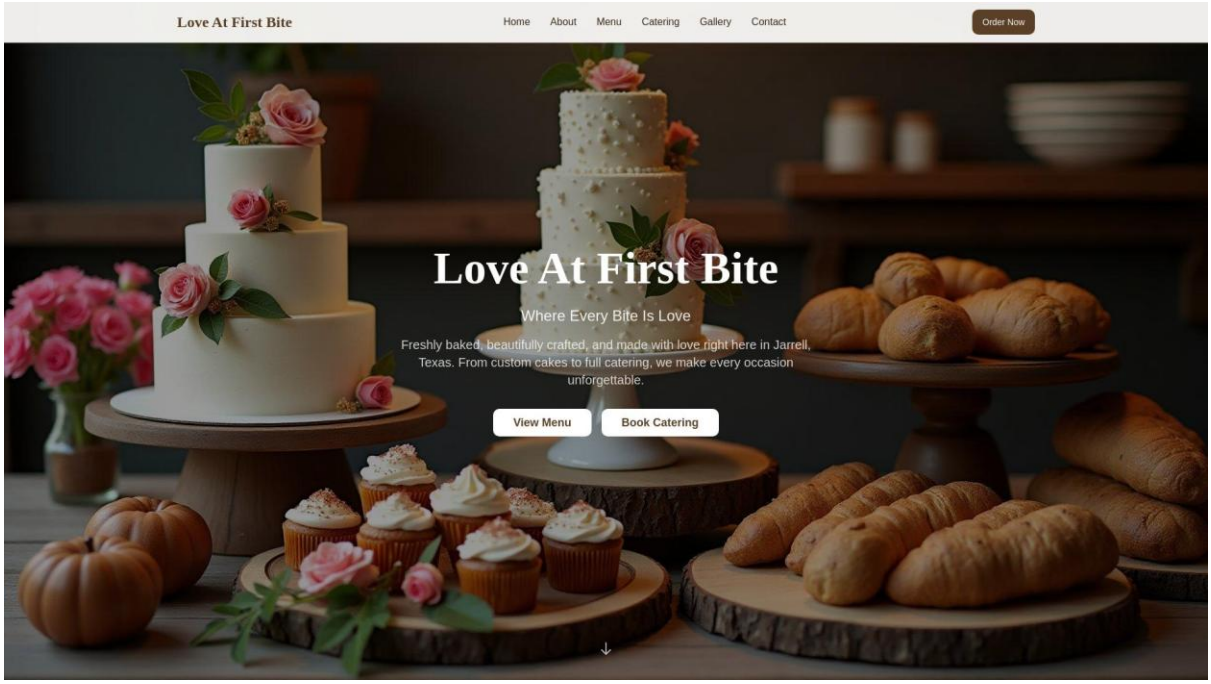

10	Best bakery for pastries in Rajkot	40	10

Conclusion: Long-tail keywords are more specific and can help a local bakery reach customers with clear buying intentions.

For real metrics, use Ubersuggest or Google Keyword Planner. Select India and the relevant language/location. Ubersuggest reports SEO difficulty, while Google Keyword Planner reports average monthly searches and advertising competition; these are different metrics.

Task 2: On-Page SEO

Sample web page: Local Bakery Homepage

SEO elements:

1. Title Tag

Best Bakery in Rajkot | Fresh Cakes & Pastries

2. Meta Description

Visit our bakery in Rajkot for fresh cakes, delicious pastries, cupcakes, and bread. Order birthday cakes and enjoy freshly baked treats.

3. H1 Tag

Best Bakery in Rajkot for Fresh Cakes and Pastries

4. Three Sub-headings

- H2: Freshly Baked Cakes and Pastries
- H2: Birthday and Custom Cake Orders
- H3: Why Choose Our Bakery?

5. Image Alt Tags

- Fresh chocolate birthday cake from a bakery in Rajkot
- Freshly baked bread displayed in a bakery
- Colorful cupcakes with cream frosting

Alt text should accurately describe each image instead of unnecessarily stuffing keywords.

6. URL Structure

https://www.example.com/

Sample product URLs:

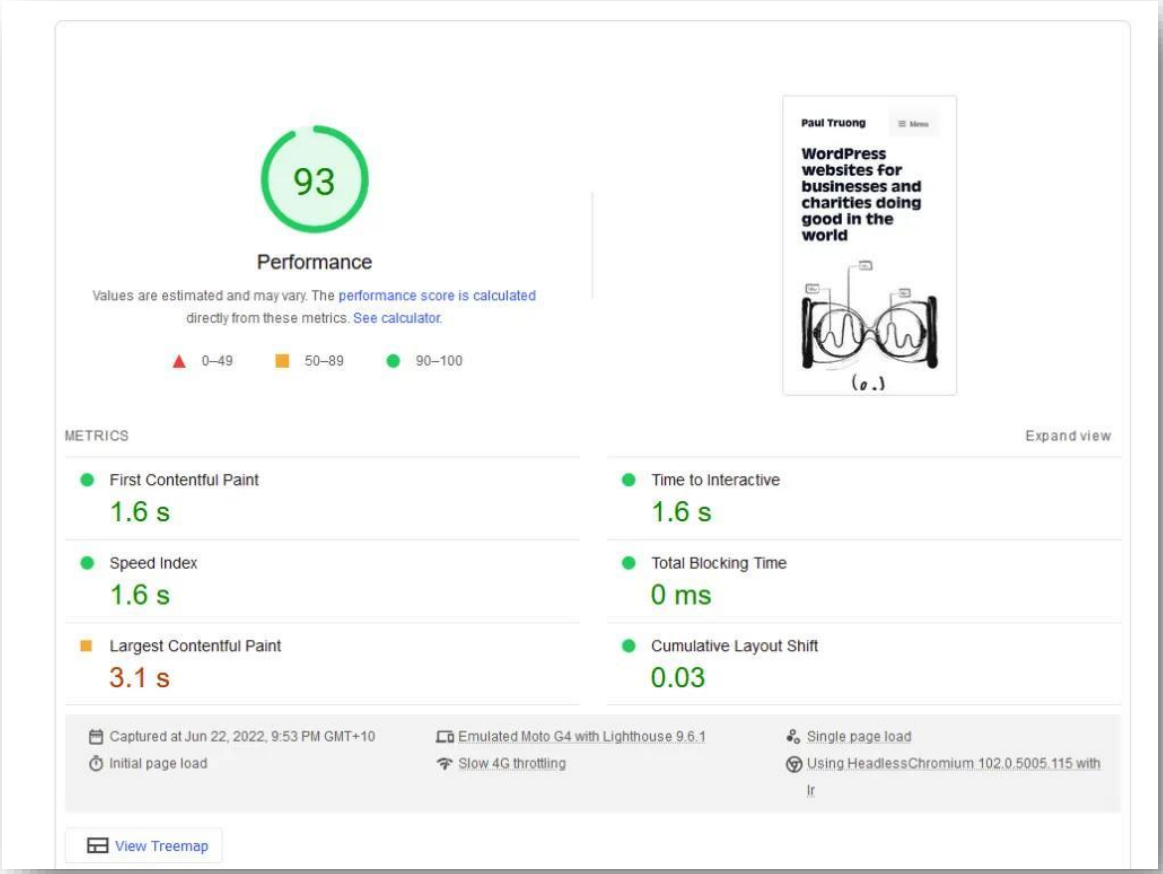

- https://www.example.com/birthday-cakes
- https://www.example.com/chocolate-cakes
- https://www.example.com/fresh-bread

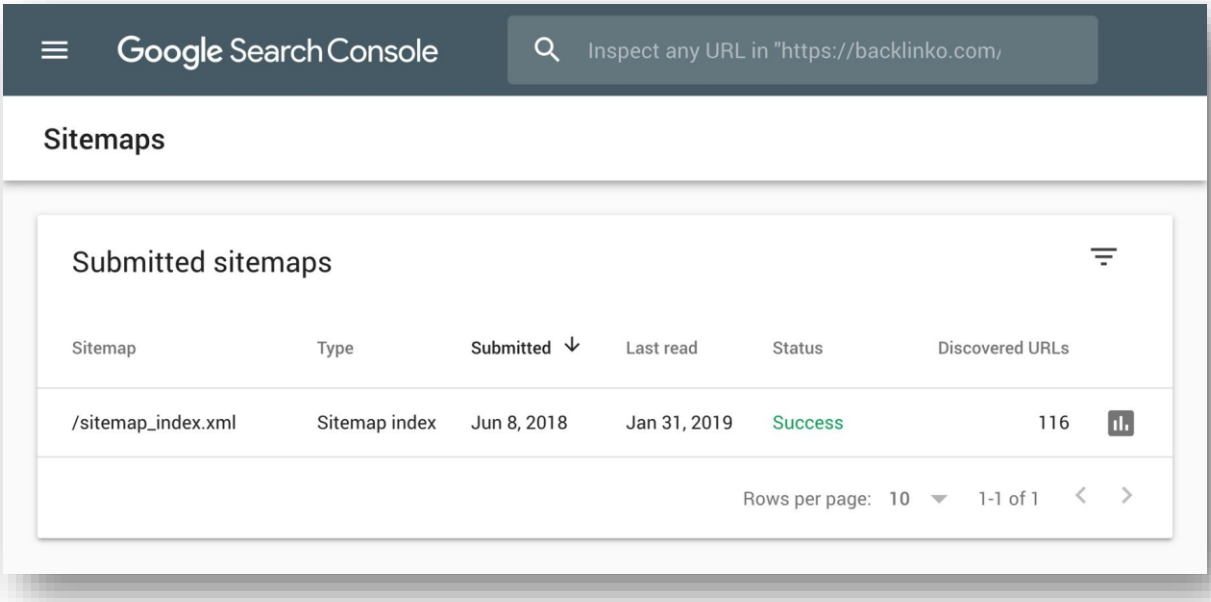

7. Internal and External Linking Plan

Link Type	Example	Purpose
Internal link	Homepage → Birthday Cakes	Helps users navigate the website.
Internal link	Homepage → Contact Us	Helps customers find contact details.
Internal link	Chocolate Cakes → Cake Ordering Guide	Connects related content.
External link	Link to a relevant food-safety resource, such as FSSAI	Provides useful, trustworthy information.

Task 3: Technical SEO Checklist

Website selected: Sample Bakery Website Tools recommended: Google PageSpeed Insights, Google Search Console, and Broken Link Checker.

Technical SEO Audit Report

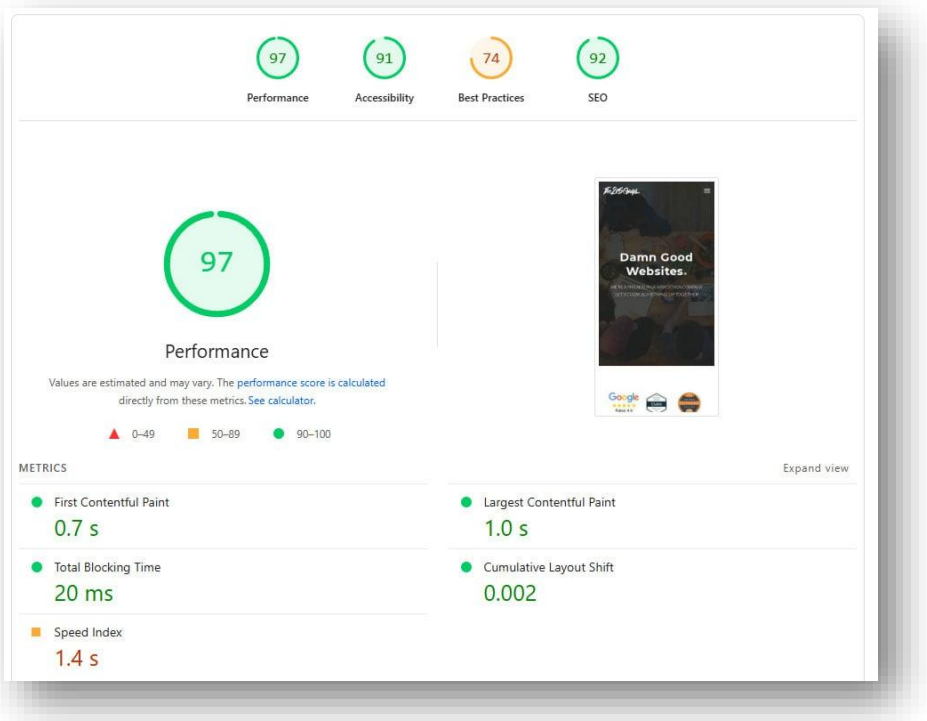

The values below are an illustrative sample for assignment practice, not results from a live website audit.

Technical SEO Factor	Sample Result	Remarks
Page Speed Score	85/100	Good sample score; verify using PageSpeed Insights.
Mobile Friendliness	Yes	Sample result; test on mobile devices.
Broken Links	0 found	Sample result; check using a link checker.
Sitemap Present	Yes	Assumed for this sample; verify the sitemap URL.
Robots.txt	Present — Needs checking	Confirm it does not block important pages.

How to Check Each Factor

1. Page Speed Score

Open Google PageSpeed Insights, enter the website URL, and click Analyze. Record the Performance score for both mobile and desktop.

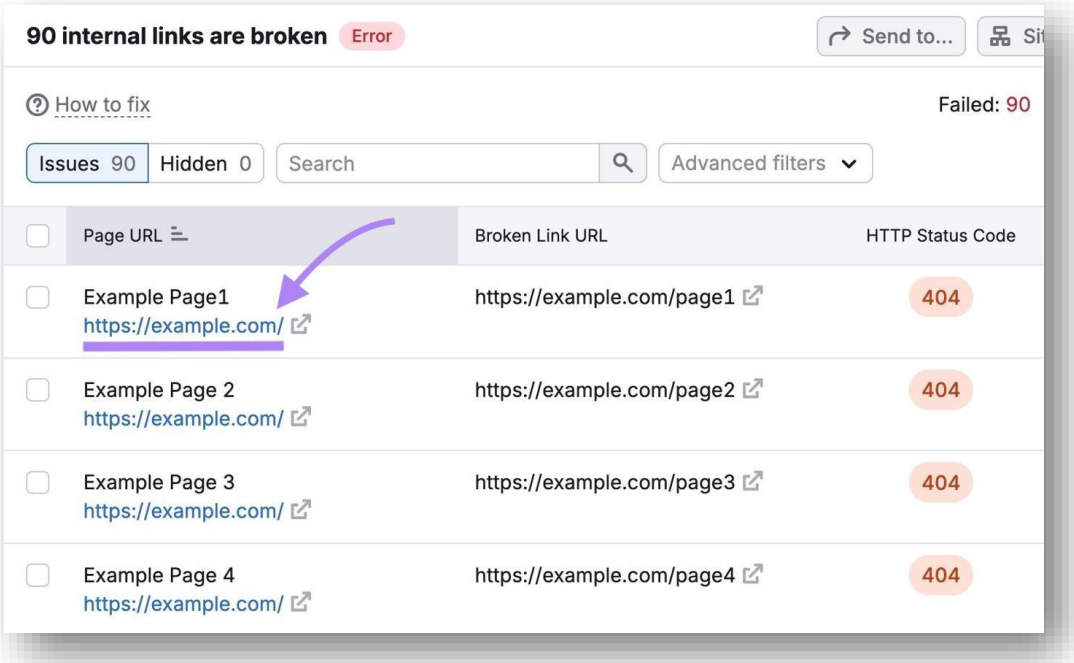

2. Mobile Friendliness

Open the website on a smartphone or use Chrome Developer Tools to check whether the page fits the screen and its text and buttons are easy to use.

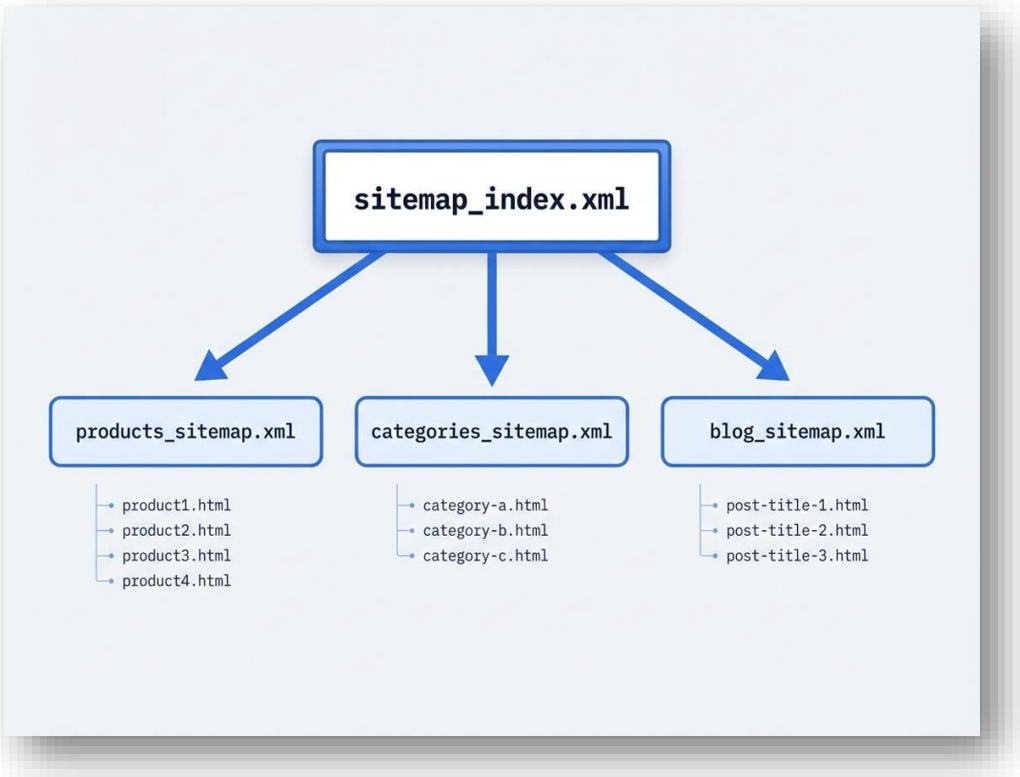

3. Broken Links

Use a broken-link checker to find links that lead to errors, such as HTTP 404 pages.

4. Sitemap

Check https://www.example.com/sitemap.xml and review the sitemap status in Google Search Console.

5. Robots.txt

Check https://www.example.com/robots.txt. Confirm that important website pages are not accidentally blocked from crawling.

Section C – Mini Project: SEO Strategy for a Bakery Business

Ans:

Business Name: Rajkot Bakery (Sample Business)

Business Type: Bakery and Cake Shop

Target Location: Rajkot, Gujarat

Main Goal: Improve Google rankings, increase website traffic, and attract more local customers.

1. SEO Audit (12 Points)

No.	SEO Factor	Audit Check / Recommendation
1	Title Tag	Include the primary keyword and location.
2	Meta Description	Write a unique, attractive description for the homepage.
3	Heading Tags	Use one clear H1 and relevant H2 headings.
4	Keyword Optimization	Target bakery and cake-related search terms naturally.
5	URL Structure	Use short, descriptive URLs.
6	Image Optimization	Compress images and add descriptive alt text.
7	Page Speed	Test mobile and desktop performance with PageSpeed Insights.
8	Mobile Friendliness	Ensure the website works well on smartphones.
9	Internal Linking	Link the homepage to cake, bread, and contact pages.
10	Backlinks	Earn links from relevant local websites and directories.
11	Local SEO	Optimize Google Business Profile, business hours, and contact details.
12	Technical SEO	Check indexing, XML sitemap, robots.txt, and broken links.

2. Keyword Strategy Table

The strategy focuses on local searches and customers who are ready to order cakes or bakery products.

No.	Target Keyword	Keyword Type	Search Intent	Target Page
1	Bakery in Rajkot	Local	Find a nearby bakery	Homepage
2	Best bakery in Rajkot	Local	Compare bakeries	Homepage
3	Cake shop in Rajkot	Local	Find a cake shop	Cake page
4	Birthday cake in Rajkot	Transactional	Buy a birthday cake	Birthday cake page
5	Chocolate cake online	Transactional	Order a chocolate cake	Chocolate cake page
6	Eggless cake in Rajkot	Transactional	Find eggless cakes	Eggless cake page
7	Custom cake shop in Rajkot	Transactional	Order a personalized cake	Custom cake page
8	Cupcake delivery in Rajkot	Transactional	Order cupcakes	Cupcake page
9	Fresh bread near me	Local	Find fresh bread nearby	Bread page
10	Same-day cake delivery Rajkot	Transactional	Get a cake delivered quickly	Delivery page

3. Five Competitor URLs and Their Strengths

These are real bakery businesses and bakery-related competitors serving Rajkot. The strengths listed are based on their publicly visible websites or listings, not a full technical SEO audit.

1. TGB Café N Bakery

Website: tgbbakery.com

tgbbakery.com

Strengths:

- Dedicated product categories for cakes, chocolates, rusk, and khari.
- Established bakery brand with multiple outlets.
- Product-focused website that helps customers explore its offerings.

2. Bake N Beans Café

Website: bakenbeanscafe.com

Rajkot

Strengths:

- Website displays its menu, ambience, reviews, and contact details.
- Offers desserts such as cheesecake and waffles alongside café products.
- Shows location and opening hours to help local customers.

3. Theobroma — Rajkot

Listing: Zomato bakery listings in Rajkot

Zomato

Strengths:

- Listed on a popular food discovery and ordering platform.
- Benefits from menu discovery and customer comparison features.
- Competes in the bakery and dessert category.

4. Ezzy Bakery

Listing: [Three Best Rated — Cake Shops in Rajkot]

Expert Recommendations

Strengths:

- Promotes customized cakes for birthdays, weddings, and celebrations.
- Offers a range of cake flavours and bakery products.
- Appears on a local recommendation website that helps customers compare shops.

5. Local Cake Retailers in Rajkot

Listing: [Justdial — Cake Retailers in Rajkot]

Justdial

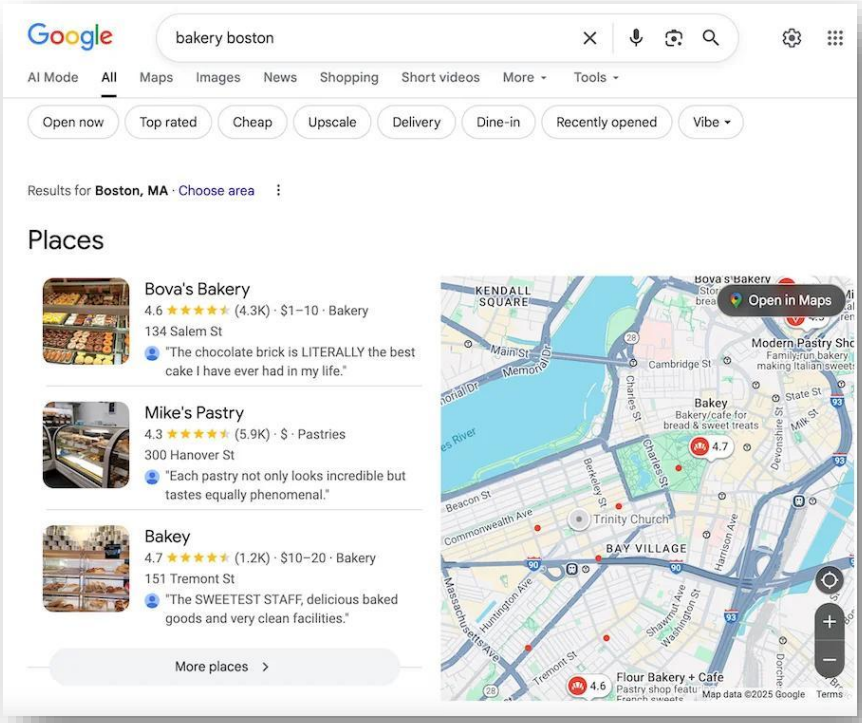

Strengths:

- Provides a directory of local cake retailers.

- Helps users compare businesses, ratings, and customer reviews.
- Gives local bakeries an additional opportunity to gain online visibility.

4. Final SEO Recommendations

Priority	Recommendation	Expected Benefit
1	Optimize the homepage title and meta description.	Improve relevance and search-result appeal.
2	Create separate pages for birthday, chocolate, eggless, and custom cakes.	Target more specific keywords.
3	Optimize Google Business Profile with accurate hours, photos, address, and phone number.	Improve local search visibility.
4	Collect genuine customer reviews and respond to them.	Build trust and help customers make decisions.
5	Compress images and improve mobile page speed.	Improve user experience.
6	Add internal links between product pages and blog posts.	Help users and search engines discover related content.
7	Submit the XML sitemap through Google Search Console.	Help Google discover important pages.
8	Fix broken links and check robots.txt.	Reduce technical crawling issues.
9	Publish useful blog posts about cake flavours, birthday cake selection, and bakery products.	Attract informational search traffic.
10	Earn relevant backlinks from local food blogs and business directories.	Build website authority and local awareness.
11	Add relevant structured data, such as LocalBusiness and Product markup where appropriate.	Help search engines understand the business and products.
12	Track keyword performance, clicks, impressions, and conversions monthly.	Measure progress and identify improvement opportunities.

5. Conclusion

SEO can help a local bakery reach customers who are searching for cakes, pastries, bread, and customized celebration cakes in Rajkot. By improving on-page SEO, targeting local keywords, analyzing competitors, optimizing the Google Business Profile, and fixing technical issues, the bakery can build stronger online visibility and attract potential customers.
